

Structure a HTML tree

Tasks

A simple webpage presenting some funny (silly) jokes and two interesting/random pictures is shown below. The page is constructed using a number of common HTML elements: headings, paragraphs, lists (unordered and ordered), and images.

Jokes and Pictures page

The HTML source code that renders this page can be downloaded from *Ontrack* under the resources link in the bottom-right hand corner of the screen.

The source code for the webpage is also is given below:

```
<!DOCTYPE html>
<html lang="en">
  <head>
    <meta charset="utf-8" />
    <meta name="author" content="Funny Guy" />
    <meta name="description" content="Some funny jokes and pretty pictures." />
    <title>Jokes and Pictures</title>
  </head>

  <body>
    <h1>Jokes and Pictures</h1>
    <div id="jokes">
      <h2>Silly Jokes</h2>
      <p>
        There are many funny jokes that we have heard. Some of the best are the
        silly ones, often called <em>Dad Jokes</em>! Here are a few examples.
      </p>
      <ul>
        <li>
          <p>
            <strong>Q.</strong> What do you call an angry carrot? <br />
            <em><strong>A.</strong> A steamed veggie.</em>
          </p>
        </li>
        <li>
          <p>
            <strong>Q.</strong> What has more lives than a cat? <br />
            <em><strong>A.</strong> A frog, because it croaks every day.</em>
          </p>
        </li>
        <li>
          <p>
            <strong>Q.</strong> What does a baby computer call his father?
            <br />
            <em><strong>A.</strong> Data!</em>
          </p>
        </li>
      </ul>
    </div>
    <div id="catnames">
      <h2>Top 5 Funny Dog Names</h2>
      <p>People can come up with very creative names for pets!</p>
      <ol>
        <li>Winnie the Poodle</li>
        <li>Sherlock Bones</li>
        <li>Bark Twain</li>
        <li>Hairy Paw-ter</li>
        <li>Santa Paws</li>
      </ol>
    </div>
  </body>
</html>
```

```
</div>
<div id="images">
  <h2>Some Pictures of Kittens</h2>
  <p>
    The internet is full of cute pictures of cats, here are some of cute
    kittens.
  </p>
  
  
</div>
<hr />
</body>
</html>
```

Sketch out the **HTML tree** for this page, similar to that shown in the “1.12 Structure of a HTML page”. Identify the set of tags (from both the `<head>` and `<body>` sections).

You can do this by creating a draft on a bit of paper, and then convert the final into electronic form using the Drawing Tools in MS Word (or similar).

What will you submit?

You should submit a screenshot or drawing (image) in PDF form, of your tree for the HTML above.
