

SIT281 learning plan and Grading agreement

A. To-do list

Please complete the following tasks:

1. Read the unit guide
2. Go through the induction module on the unit site
3. Choose your target grade (Section B below and Ontrack)
4. Tell us about yourself (Section C below)
5. Read and sign the grading agreement (Section D below)

B. Target grade

- I'm aiming to achieve a High Distinction

C. Me in SIT281

1. Describe your current level in mathematics in general and cryptography in particular.

Answer: Very bad at maths. I'm more of a practical person. I have experience dealing with cryptography related code and processes in real world applications using libraries that are already built. But I don't know the mathematical aspects behind any of them.

2. What do you want to learn and gain from this unit? How does it relate to your degree/future career?

Answer: Understand the low level mathematics behind these cryptographical concepts.

3. Choose a target grade and explain why you have chosen to target this grade.

Answer: Aiming for HDs in all the units, including this one. Just aiming for the highest grade possible. It will also encourage me to go beyond the learning requirements of this unit and explore and understand things all on my own.

4. What do you need to demonstrate to achieve this grade? Relate this to the meaning of each grade.

Answer: Complete all the pass, credit and distinction tasks followed by the HD report. I will need to "demonstrate the the ability to independently research a topic and communicate effectively using mathematical language and terminology to convey complex ideas and proofs in cryptography".

D. Study Plan for High Distinction students

Be sure to set your target grade on ontrack.

Module	Due Date (Recommended date to complete the task)	Feedback Deadline (Final deadline for receiving feedback)
Learning plan	Week 1	Week 2
Module 1 Number theory	Week 1	Week 2
Module 2 Matrix algebra	Week 1	Week 2
Module 3 Classical cryptosystems	Week 2	Week 3
Module 4 Number theory-2	Week 3	Week 4
Module 5 RSA	Week 4	Week 5
Module 6 Discrete logarithms	Week 5	Week 6
Module 7 DES	Week 5	Week 6
Module 8 Finite fields	Week 6	Week 7
Module 9 Mini AES	Week 7	Week 8
Elective Module 1	Week 8	Week 9
Elective Module 2	Week 8	Week 9
Elective Module 3	Week 9	Week 10
Distinction Module [selection]	Week 9	Week 10
Distinction Module [completion]	Week 10	Week 11
HD report [draft]	Week 10	Week 11
HD report [final]	Week 11	Week 12

Enrichment Tasks	Due Date	Feedback Deadline
Task 1	Week 5	Week 6
Task 2	Week 8	Week 9

Check-ins	Due Date	Feedback Deadline
Check-in 1	Week 5	Week 5
Check-in 2	Week 8	Week 8

E. Grading Agreement

I, **Hirusha Adikari, 225555137**, confirm that I have read and understood how this unit works. I understand that:

- I will receive a grade in accordance with the number of modules I complete.
 - I can change my target grade at any time during the trimester, up until I submit my portfolio.
 - I am responsible for providing evidence of my work to satisfy the requirements in each module completed.
 - It is not possible to fail a module (except by not submitting it), but updates may be requested to achieve the required standard.
 - Following my initial submission, I will work with my tutor and the teaching team to update and complete my submissions until they demonstrate that I have achieved the learning objectives of the module.
 - The OnTrack task due dates are the dates by which I should submit to receive feedback from my tutor. I also understand that submitting beyond these dates will not result in failing the task, but the task will not receive feedback and will be marked as it is.
-
- o I commit to submit the initial submission of my work before the deadlines listed in the table above (**ontrack feedback due dates**).
 - o I am familiar with the Getting Help pages and FAQ on the unit site, particularly the unit advice on working with others (i.e., how to avoid collusion) and use of generative AI.
 - o I understand that inappropriate use of generative AI or collusion with others can result in allegations being made against me for a breach of academic integrity.

- Name: **Hirusha Adikari**
- Student ID: **225555137**
- Date: **9/7/2026**
